We direct the members to required admins, for example an ODAAT host. If a WhatsApp concern, it will go to the WhatsApp admins. We collectively discuss and come to a resolution to whomever has issued the complaint.

6. Discussions

- a. IBM New Meeting Time (Vincent) – Vincent mentions that the last couple IBM's were rushed since there is a ODAAT meeting following. Vincent is concerned that there isn't enough time for the meeting. Vincent mentions that he is a member of other fellowships and there business meetings are an hour and can be extended for another 30 minutes. Vincent mentions in other fellowships they have a one hour business meeting and if they don't get everything discussed then they meet two-weeks later. Vincent is aware that there is little on the LAA IBM agenda for this meeting and he is aware that this looks redundant right now but still wanted to raise this concern. Vincent mentions that in the last two LAA IBM's that we were rushed for time. Vincent wanted to see how others felt and that is all he wanted to say at this point. Chris asked if anyone has anything they wanted to share on this topic. Pooja mentioned that her experience on committee meetings and business meetings that one hour is sufficient. Pooja mentions that the last meetings there were rare issues discussed such as the issues raised in the LAA Russian fellowships. There was an interim LAA IBM meeting of LAA Russia concerns to discuss this topic as well, which was helpful. Pooja mentions in her opinion that more than one hour is too long and half an hour is too short, in her attendance of previous LAA IBM's attended. Chris asks if there are any others who wanted to share their thoughts on this topic. Chris mentioned that we monitor this and see if there are any strong feelings from other members on this topic. Chris mentioned last month that the concerns from the Russian fellowship takes a lot of time. Oskar mentioned that we did take a lot of time and attention. Chris asks Vincent if he is OK with this and if we can monitor this concern. Vincent mentions that the LAA IBM in December 2024 was canceled and when we met in January, we didn't meet in two months, and mentions that there was a lot of things talk about. Vincent finds that the IBM meetings feel rushed and there was some IBM agenda items that we didn't get to talk about and were pushed back another month. Under these circumstances, we had a backlog of business. Vincent mentioned that he posted this time issue on the WhatsApp Group but recognizes that there wasn't much comments on it. Vincent sees that at this time is willing to let it go and just monitor it. Chris agrees and asks if there is any new items that anyone wants to discuss. Pooja wanted to introduce a

point about making announcements about the open LAA service committee position openings. There are literature and safety committees. If anyone is interested, they can join. LAA Literature committee is something we can still focus on. Right now, there are a few LAA committee members who are involved in multiple committees, and it is great way so others who are interested could help in the spirit of fellowship. Chris asked for a motion to adjourn the LAA IBM meeting. Vincent motions that we adjourn. Chris seconds the motion.

7. **Closing:** Serenity Prayer (“we” version)- God, grant us the serenity to accept the things we cannot change. The courage to change the things we can. And the wisdom to know the difference.
