E. New/Old Business

- Lengthy discussion about safety in after hours
- Hosts sometimes behave inappropriately
- Principles before personalities
- Many ODAAT hosts have complaints raised against them
- Anyone talking about limerence for anyone else within LAA, is inappropriate to discuss in a LAA meeting
- Current host training is less about the documents, more about the integrity of the space or how to handle difficult situations
- It might be helpful to standardize host training
- Hosts need to stick to the script
- If someone would like to compile a list of hosting tips, it might be helpful
- Newcomers find it hard to speak without a sense of safety and neutrality
- One newcomer suggested that consistent hosting on rotation would allow newcomers to learn through relationships
